AROMATIC FREE

CLEANING POWER **5**

ALL UV INKS

00419 UV 2000 WASH

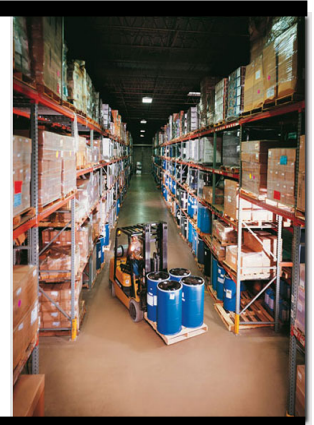

HIGH PERFORMANCE UV WASH

Application

Safe UV roller and blanket wash. Low consumption via a low evaporation rate and aromatic free. Suitable for recycling and filtering.

Benefits

Developed for all modern UV inks. Very low odour and superior strength. Aromatic free formulation. Top of the range product with intensifiers and corrosion inhibitors.

Instructions

Add to any press automatic roller or blanket wash unit. When used manually for hand blanket washing use sparingly and always finish with liberal amounts of water. May be pre-mixed with water

up to 50% to activate emulsifiers (or higher for maximum economy). Inbuilt rubber conditioners maintain rubber suppleness and reduce durometer creep. .

“Hi tech solutions for tomorrow developed today”
Fluid Technologies

Committed to excellence and distinguished by high quality innovative technology.

With a vision to revitalize the industry, its philosophies, and technologies.

Fluid Technologies has a sole focus on technologically driven fluids for the Printing Industry.

Partner with the true press chemical professionals for superior products, realistic prices and exceptional service!
