FEATURES

CONVENTIONAL PLATES

CTP PLATES

CORROSION PROTECTION

ANTI FUNGAL PROTECTION

ECO-FRIENDLY

WATER MISCIBLE

NON BLINDING

SYNTHETIC

00446 SPECIAL GUMWASH

SPECIAL PLATE GUM WASHOUT

Application

Effectively removes ink and preserves all lithographic offset printing plates. For short, medium or long term storage.

Benefits

Highly effective in cleaning and protecting image and non image areas of printing plates. Mild enough for CtP and conventional plates..

Instructions

Apply liberally by hand with damp cloth or sponge to full area of printing plate. Buff well to smooth and dry finish ensuring no streaks or marks. Use on press at stoppages or off press at end of print run

and before long term plate storage. Optimum viscosity makes this product suitable for automatic gumming units and converted plate processors. Can be reduced with water for viscosity adjustment.

“Hi tech solutions for tomorrow developed today”

Fluid Technologies

Committed to excellence and distinguished by high quality innovative technology.

With a vision to revitalize the industry, its philosophies, and technologies.

Fluid Technologies has a sole focus on technologically driven fluids for the Printing Industry.

Partner with the true press chemical professionals for superior products, realistic prices and exceptional service!
