DEEP PORE CLEANING

# 00435 MRC 88

## LOW VOC METERING ROLLER CONCENTRATE

### Application

Intensive low VOC rubber conditioner and deglazing fluid for all rubber surfaces and metering rollers. Suitable for any sheetfed or web offset press application.

### Benefits

Highly effective regular use fluid for elimination of gum glaze and calcium buildup on the printing press. Returns metering rollers to "matte" appearance and restores hydrophilic properties.

### Instructions

Apply liberally by hand with a lint free cloth to static rubber surfaces and rub well to clean rollers. Work deep into pores of rubber. Rinse well with water. Combine with 00505 Roller Milk and 00447 Roller Paste.

*"Hi tech solutions for tomorrow developed today"*

*Fluid Technologies*

*Committed to excellence and distinguished by high quality innovative technology.*

*With a vision to revitalize the industry, its philosophies, and technologies.*

*Fluid Technologies has a sole focus on technologically driven fluids for the Printing Industry.*

*Partner with the true press chemical professionals for superior products, realistic prices and exceptional service!*
