

00428 ECO SERIES KV150

VEGETABLE BASED ROLLER & BLANKET WASH

HIGHLIGHTS

LOW EMISSION ✓

VEGETABLE BASED ✓

ECO FRIENDLY ✓

LOW ODOUR ✓

ECONOMICAL ✓

LOW CONSUMPTION ✓

NON CORROSIVE ✓

DESCRIPTION

A truly innovative and revolutionary product. ECO KV150 is a blend of natural raw materials with no aromatic or chlorinated solvents. Much less harmful to both human health and extremely more beneficial to the environment due to full biodegradability.

Formulated with the very latest Corrosion inhibitors make it safe for every press type.

Virtually VOC/ HAP Free and classed as non flammable (180 °F/ 83°C Flash Point) making handling and storage much safer.

Low odour and pleasant to use.

Excellent economics due to high concentration and low volumes needed.

Fully water miscible for further improved economy, lint and glaze removal.

- Sheetfed and Web applications.
- Cleans quickly and thoroughly.
- Highly concentrated.

BENCHMARKING TESTS

BLANKET SWELLING: By Test DIN 53 521.

- DAY Graphica 3610= <1.0%
- DAY Microgap 8897= <0.5%
- Conti Air FSR= <1.0%
- Perfect Dot MX= <1.0%

SOLVENT POWER: Kb value Test ASTM D 1133. A higher Kb value means the cleaner is more aggressive or active.

- Bottcher/ Varn Enviro =25
- Bottcher/ Varn V60= 50
- **ECO Series KV150= 60**
- Solvent Toluene= 105

VOC EMISSION: By ASTM D 2369 Test. Volatile organic compounds (VOC) are compounds that evaporate into the atmosphere and contribute to Greenhouse Gasses and Pollution.

- Solvent Toluene= 99%
- Fast Solvent=90%
- Bottcher/ Varn V60= 70%
- **ECO Series KV150= 13%**
