VOC FREE ROLLER CONDITIONER

HIGHLIGHTS

VOC FREE

ALL PRESSES

ECO FRIENDLY

LOW ODOUR

ECONOMICAL

LOW CONSUMPTION

NON CORROSIVE

DESCRIPTION

A truly innovative and revolutionary product. ECO Series Resolve Roller Conditioner is a partner to the new ECO Series Vegetable Based press wash series.

VOC Free raw materials with carefully selected rubber conditioners. To be used as a deep pore cleaner when running the next generation ECO Series Vegetable Based Washes.

Designed for regular daily or weekly use, ECO Series Resolve Roller Conditioner will remove any residues left when using VOC Free Vegetable Based washes.

Much less harmful to both human health and extremely more beneficial to the environment. Suitable for all rubber compounds and press applications.

Formulated with next generation corrosion inhibitors to make it safe for every press type.

Low odour and pleasant to use.

Excellent economics due to high concentration and lower volumes required to clean and condition.

- Sheetfed and Web applications.
- Cleans quickly and thoroughly.
- Highly concentrated.
- Deep pore cleaning
- 100% VOC Free
