

FEATURES

00465 ABC ORANGE WASH

FOGRA APPROVED ROLLER & BLANKET WASH

ALL PRESSES

DESCRIPTION

ABC Orange contains no aromatic or chlorinated solvents and is therefore less harmful to both human health and the environment. It is not classified as flammable making handling and storage safer and because of its very low odour is more pleasant to use.

DIRECTIONS FOR USE

Rollers: Apply either neat or mixed with water directly to inking rollers, allow to run in before applying wash-up blade. Follow up with a water wash for thorough removal of all residues.

FAST DRYING

ABC Orange Wash has been tested and approved by FOGRA according to evaluation criteria as specified by Heidelberg, MAN Roland and Baldwin WORLD WIDE.

Blankets: Apply either neat or mixed with water using a water damp cloth to remove all ink and water soluble material. Buff down with a clean, water damp cloth before starting press.

WATER MISCIBLE

For automatic systems use undiluted

LOW ODOUR

- For use with sheet fed and web applications
- Water miscible, for addition economy it can be mixed with up to 50% water without reducing its cleaning action.

ADVANTAGES

Very low odour.

Medium/fast evaporation rate.

Easy to use - emulsion forms quickly. Designed to be mixed with up to 50% water.

ECONOMICAL

- Cleans quickly and thoroughly
- Reduces blanket tack
- Prevents oxidation and swelling of Rubber
- Maintains ink receptivity of rollers and blankets

Will not leave a greasy residue when used as directed.

Less solvent coming in contact with roller and blanket compounds.

ROLLER WASH

- Compatible with most negative/positive printing plates

Addition of water enhances performance by removing both oil and water

BLANKET WASH

“The most innovative pressroom chemistry supplier in Australia today”
